The South Carolina Opioid Recovery Fund

More than 92% of South Carolina's funds have been allocated for opioid abatement.
All funding requests must be for an approved abatement strategy
listed in Exhibit C of the settlement agreement.

3

Guaranteed Political Subdivision Fund Applications

South Carolina counties and municipalities who participated in opioid-related settlements must submit requests seeking funding for approved abatement strategies from their available allocation of the Guaranteed Political Subdivision Subfund.

The window for applications will be published on the website and announced during Board meetings and Coffee Chats.

<https://scorf.sc.gov/information-and-resources/coffee-chat>

Proposals must be based on an abatement strategy(ies) chosen from the approved strategy list available on the SCORF website: <https://scorf.sc.gov/opioid-recovery-fund-uses>

Applications must include the following:

- Approved Abatement Strategy
- Implementation Plan
- Process/outcome measure
- Budget for strategy

4

Community Planning for Opioid Remediation and Abatement

This is an opportunity for guaranteed political subdivisions to bring together stakeholders to prioritize addressing the opioid crisis in their communities and develop a community action plan based on the approved opioid abatement strategies.

Guaranteed political subdivisions may submit a Letter of Intent (LOI), rather than an application, to develop comprehensive long-term opioid remediation plans.

This is an open-ended opportunity as there is no deadline for submission. A political subdivision may make this request once every 3 years.
