

2019 OSHA Training Schedule

We are continuing our collaboration with SC OSHA for training again this year. Please circulate the schedule to employees and managers and encourage them to register for classes. **We must have at least 12 confirmed registrations to hold a class.** Certificates of risk management continuing education hours will be issued to all participants. Even though employees may have attended a class on these topics recently we strongly encourage them to participate again this year. Please use this training opportunity to reassess your county's OSHA compliance effectiveness. Please register by contacting Caroline Deevey at 800-922-6081 or cdeevey@scac.sc.

February – Trenching & Heavy Equipment –the session will cover the exposures associated with trenching and excavation and will include an additional segment focused on the safe operation of heavy equipment.

Target Audience – managers and supervisors who direct employees and general employees who are engaged in excavations and the operation of heavy equipment should consider this class.

Time: 10am until 3pm

Feb. 13 - Columbia at SCAC offices, 1919 Thurmond Mall, Columbia

Feb. 20 - Anderson, Anderson County Library, 300 N. McDuffie St, Anderson, SC 29621
